

SHOO-MOLD is an all natural organic cleaner for mold and mildew. It is a safe, non-toxic product which combines natural enzymes and citric acid that cleans up mold and mildew. It has proved 100% successful in the home, garden, hospitals, schools, apartment buildings and even the U.S. Naval Base in Groton, CT. Professional cleaners prefer Shoo-Mold because removal of walls and ceilings are not necessary if they have not deteriorated. It is also recommended for air ducts and air conditioners twice yearly in order to clean mold and mildew and to counter musty odors. Shoo-Mold has a pleasant citrus scent.

Shoo-Mold is safe and non-toxic to humans and pets.

DIRECTIONS FOR USE: READ LABEL CAREFULLY - It is important that this product be used in accordance with the directions and label. Shoo-Mold can be used on localized surface areas such as walls, floors, furniture, drapes, boat cabins, RV's, campers, patio furniture, wood siding, concrete, clay shingles, luggage and more.

BEFORE USE: make certain that all leaks are repaired and surfaces to be sprayed are dry. Use heater or blower if necessary. The pump spray can be adjusted for spray or jet stream. Spray to point of runoff from 18-24 inches away from areas to be treated. Use jet stream for hard to reach areas. Maintain safe distance from the moldy areas which could contain toxic mold. **Allow 24-48 hours for cleansing action.** Vacate sprayed areas for 2-4 hours to allow spray to dry. Keep area well ventilated.

TO REMOVE RESIDUE: Use soap and water or a non-ammoniated cleaner to wash treated area. A scrub brush may be useful. Finally, rinse well with clean water and allow to dry. A fan or heater may be helpful. Spray treated area again and allow to dry.

NOTE: Discard fabric or carpets that have significant damage or discoloration due to mold or mildew.

Proudly Manufactured in the U.S.A.

NET CONTENTS: 32 FL. OZ.

FOR GARDEN USE: SHOO-MOLD can be safely sprayed on plants, flowers, fruits and vegetables up to the time of picking to rid them of any mold or mildew. As with any produce, rinse well before consumption.

DIRECTIONS FOR GARDEN USE: Spray Shoo-Mold only on a dry day when rain is not expected for at least 12 hours. Contaminated vegetation should be dry prior to spraying. Spray infected areas to the point of runoff. After 48 hours, hose off vegetation. Re-spray in two weeks, if required.

STORAGE AND DISPOSAL: Store in area away from sunlight. Store away from children. Store at room temperature. Do not freeze. Rinse container and discard with trash.

PRECAUTIONS: For extensive use of product, it is advisable to wear rubber gloves and face mask, as sensitivity to spray may produce mild irritation of skin and eyes. Keep area well-ventilated. Use and store product at room temperature.

CAUTION: Avoid contact with skin and eyes, since some individuals are sensitive to ingredients. When spraying electrical equipment, unplug first to avoid any electrical hazards. Cover food stuffs and utensils.

ACTIVE INGREDIENTS: Cellulose, Lipase, Amylase, Protease, Limonene, Citric Acid **INERT INGREDIENTS:** Filtered Water

The enzymes in Shoo-Mold break down mold and mildew the same as occurs in the digestion of food.
